I don't see a difference
They look exactly the same.
In the first place, what's the point of taking my skirt off?
Those are "under-pants"!!
They say that they were once quite popular among humans

These Panties!! are also panties right!?
Nope It's a sportswear
Bloomers!!
Bloomers, which were once regarded as the symbol of women's liberation quickly became an object of sexual interest. And with time were soon expelled from the human society. These days they've been living in secret along with a few chosen one's or so I've heard.
It's a sad sportswear that bears the history of cultural destruction
They should have been wiped out completely!!
Thanks for those Bloomers!!
I knew it.
And your real reason

Why re you so focused on making me wear these embarrassing clothes?
Oh you noticed?
It can t be helped then let's talk
Wait a minute
if Bloomers aren t your type, then you can try these next——
To tell you the truth——
I was thinking of drawing one of these rumoured "Thin Books"
I don't get it at all—
But I can tell that it's definitely not something decent!!
It's an omnipotent underwear that I found in one of the books—
You could've just declined.....
She sure is not
Of course.
It better be the last one.
Well well, the next one'll be the last, so please be my model.
